2.) Project Description

This project will provide respiratory fit testing equipment for agencies throughout the DPR3 region to ensure the protection of first responders. The PortaCount can be used by public health, hospitals, EM, EMS, and volunteers to fit test them for respirators pre-event or during a response to a public health emergency or other disaster.

3.) Project Necessity

Per OSHA standards, employers with a respiratory protection program must fit test employees. In a public health emergency or other disaster this will necessitate ensuring first responders and others who typically do not wear respirators have been fit tested in order to perform job duties; for example, working in a Point of Dispensing for a communicable disease outbreak.

North Carolina FY 2015 HSGP Sub-Grantee Application

4.) Regionalization

The PortaCount is a portable machine and can easily be moved to any location where it is needed. Respiratory vulnerability knows no jurisdictional boundaries, which is why DPR3 is committed to having these machines strategically placed to be readily available to the most responders.

Deployable? <i>Can the project be deployed to other jurisdictions?</i>	Yes
Sharable? <i>If the asset cannot be moved, can it be shared with other jurisdictions?</i>	Yes

5.) Results Evaluation

DPR3 is in the process of ensuring that each county, and several agencies within each county, have access to this type of machine. The Public Health agencies in each county know where the machines are located and can identify gaps.

6.) Project Management

DPR3 leadership team will manage the proposal and contracts and ensure timelines are met and rules followed. Jones County Health Department will be able to assist with this process by completing the requirements of the contract as far as sending the purchase request, receiving the machine, and signing the MOA.

7.) Sustainment

Health Departments have respiratory programs in place with trained staff. The regional public health IH offers training on the PortaCount at no cost. The local agency that receives the equipment is responsible for maintaining the machine, which can be sustained through the PH preparedness grant.

8.) Project Milestones:

Jan-March 2015: Submit proposal
 April-June 2015: Await approval of proposal
 July-September 2015: Sign MOA and submit purchase order to manufacturer.
